Field InsightsTM

Introducing Field Insights, a suite of tools designed for farmers that will assist in understanding crop health conditions. These tools will help reduce loss risk and allow you to be more productive in the field.

Field level data at your fingertips, giving you the “power of knowledge” when it comes to farming operations!

Available anytime, anywhere!

Field Insights is available on computers, tablets, mobile devices and from within the QBE NAU mobile app. The suite of tools includes:

- Current, future and historical weather data
- Radars, including 2 hrs. and 24 hrs
- Wind speeds
- Precipitation, including the last 24 hrs. and next 24 hrs
- Canopy wetness
- Spray windows
- Planting conditions
- Growth models and growing degree days

Contact your QBE NAU agent to learn more about Field Insights.
