

## **Instructions for EASYmobility users on how to update to NAU Country**

- 1) EASYmobility will be retired after the release of NAU Country.
- 2) If you continue to use EASYmobility, you will be notified by the banner on the login screen. The app will remain available until late November, but will be unsupported.
- 3) We highly recommend downloading the new NAU Country app now, which will have all the same features as EASYmobility. Please Note: Prospect quotes will not transfer to the new app. If you want to keep EASYmobility long enough to recreate those quotes in the new NAU Country app, they can run parallel to one another.
- 4) To download the new app, go to the App Store.

- 5) Search for NAU Country.
- 6) Click the download icon.
- 7) NAU Country will create a new icon on your iPad or tablet.
- 8) EASYmobility will still exist on your iPad until you choose to remove.
- 9) Once updated, login with your same credentials.
- 10) Enjoy the new app!
