

Ensure your opportunity for profit with NAU Country!

Ensure your opportunity with FCIP

NAU Country presents the opportunity to protect your crop from the start! With our supplemental plan, Forward Contract Insurance Protection (FCIP), you'll be able to take advantage of the market conditions as they happen and market for success!

FCIP will provide an indemnity to you in the event you're not able to deliver contracted bushels insured under an MPCl crop insurance policy.

FCIP is available in select states for corn and soybeans grown for grain with a Yield (YP) or Revenue Protection (RP) plan. You have the ability to purchase FCIP at a lower coverage level than your underlying policy.

FCIP is a private, limited liability insurance product. NAU Country must confirm coverage in writing.
